# Customized care to help with life changes

Sometimes people are faced with problems they simply cannot overcome by themselves. Too many people suffer in silence as they try to cope with changes in their lives.

The Behavioral Health Center offers help for families and individuals struggling with: physical decline and loss of independence; debilitating depression; or other persistent psychological problems. We offer a private setting - a place of comfort where you can receive specialized care from our experienced staff.

## Inpatient Short-Stay Program

The Inpatient short-stay program is designed for adults (18 years old and up) who experience a mental health crisis and struggle with psychiatric, emotional or behavioral issues. The program provides 24-hour comprehensive care where an average length of stay is seven to ten days.

The purpose of the program is to promote the highest level of independent living and to assist individuals in living their life to the fullest.

### SERVICES INCLUDE:

- Psychiatric evaluation and care
- Physician management
- Medication management
- Assessment and discharge planning

- Group and individual therapy
- Occupational therapy
- Activities therapy
- Coping and life skills training

Our treatment team consists of a psychiatrist, psychiatric nurse practitioner, licensed nurses, clinical therapists, and an occupational therapist.

## Admission Criteria

Older adults experiencing any of the following:

- Need for adjustment in medications requiring skilled observation
- Destructive, aggressive, assaultive, or combative behaviors
- Suicidal or homicidal thinking
- Emotional issues that severely impair daily functioning

## Referrals and Assessments

A request for care can come right from you, a health professional, or a family member. AHC Behavioral Health Center will perform a clinical evaluation to determine treatment needs.

## Affording Care

Services are covered by most insurance plans, including Medicare. However, like most insurance coverage, there are annual deductibles and co-payments associated with the services provided by Amery Hospital & Clinic, which are the responsibility of the patient.
