TOGETHER, WE CARE FOR YOU

Structured Outpatient Program

Helping individuals live their lives to the fullest

Customized care to help with life changes

Sometimes people are faced with problems they simply cannot overcome by themselves. Too many people suffer in silence as they try to cope with changes in their lives.

Amery Hospital & Clinic Behavioral Health Center offers help for families and individuals struggling with: physical decline and loss of independence; debilitating depression; or other persistent psychological problems. We offer a private setting - a place of comfort where you can receive specialized care from our experienced staff.

Structured Outpatient Program

The Structured Outpatient Program focuses on reducing mental health issues and improving overall health in an unrestricted setting while still allowing you to maintain your daily living situations and relationships.

The treatment is unique and individualized for adults who suffer from psychiatric, emotional or behavioral disorders.

SERVICES INCLUDE:

- Individualized Treatment Planning
- Psychiatric services
- Group psychotherapy
- Individual and family therapy as needed

- Community and social support
- Medication management, if appropriate

Our treatment team consists of a psychiatrist, clinical therapists, and a mental health technician.

Referrals and Assessments

A request for care can come right from you, a health professional or a family member. An initial assessment will be conducted by one of our therapists to determine treatment needs.

Affording Care

Services are covered by most insurance plans, including Medicare. However, like most insurance coverage, there are annual deductibles and co-payments associated with the services provided by Amery Hospital & Clinic, which are the responsibility of the patient.

Consultations and Information

The Structured Outpatient Program is offered Monday through Friday. Clients attend from one to five days per week based on their needs.

If you or someone you know would benefit from this program, **contact the Intake/ Outreach Coordinator at 715-268-0069 to schedule a consultation.**
